Sunday Morning

Hi! Didn't go to church --too ~~late~~ ^{busy} and the wind is blowing a gale. Hope it dies down before church program this evening/afternoon. Your package arrived in good shape--really was tied up! All cards were in place so rest assured that they will be delivered to the right person. We sent a small package on it's way and have asked Marie to take care of the rest--so hopefully our message got to her and she has found time to take care of it.

Marie and her friend Amy have found an apt. and are moving this weekend--hope their own cooking will agree with Marie--she had quite a bit of trouble with her 'tummy' and Dr. thought it was the spices etc. that Puerto-Ricans added to the Swiss food--

Peter still here and about to decide just what he will do.

Diane's first report card last week Straight A-1's (even gym & music). I've managed to survive without any absences so far.

I've always been out several days in Dec. but perhaps that is due to the fact I'm not taking any courses this year. I'm looking forward to vacation and wish it were longer.

No, I haven't used the drug unit yet--Our fall science studies have been mostly nature oriented. Hopefully I'll get to it this winter. The Pendleton suit is beautiful. A bit snug but doesn't really look it--couldn't Helen almost use it. Thanks!!
