

Sunday Evening

My dear Mary,

I only wish that
I was with you to
night but as we are
not I will think of the
good time we will have
together when we do meet
again wont we please.

Today has been a cold
and misty day but I
hope it will clear up
and be nice for a while again

the folks has gone to Church
and I am all by myself
but some day you will
be with me wont you
dearie and we will both
be happy. But we are both
happy now but I mean
we will be still happier
wont we?

devey wrote me a letter
and told me that he took
you to the football game
I dont know how he
found it out about the

picture for I havent written him
since he has gone back to
school I guess he couldnt find
anything out by me so he
thought he would ask you.

Papa got this last letter
and thought it was a Confang
in the mine that I ordered a
belt for the tractor and opened
the first envelope and seen
a mother envelope and when
I came in he went and got
it and said do you know
who that is from but I never
let on, I thought that was
a pretty good one.

Sure my dear you may read
that little article Back to the Farm

I am sure that is the
kind of life I want to live
because I want to live the
kind of life that we may
both be happy, I will do
all that I can to help make
such a home that you may want.

When we are married
I think that will be long
enough to keep it, we don't care
now how many people know
it but I think it is none
of their business outside the
Family.

We got the Horse back today
that we have lost for the
past six months and so we
are going by the sun instead
of Wilson time.

I sure will be proud to
have you wear the
diamond,

I should say not they
aren't the last blue ribbons
we will take, We will
show them who will take
the blue ribbons.

I don't care what the
people will say about me

Choosing you for a life companion
I know one thing that I
If I didn't love you
and you were the dearest
girl to me I would have
never chosen you

Mary please I don't
think that I can wait
till Thanksgiving to see you
for the last two weeks seem
like ages Mary I think
I will come up Saturday
of this week and I will
bring the diamond.

The tractor is running fine
and every thing is coming
along fine down on the
farm but will come finer
when you get down here.

as it is getting about
bed time so will
say good nite dear till
some time Saturday

Good Nite dear

From your dear Carl
