

April 30. 1920.

My dear Mary.

I wish that I was with you tonight but will write.

It had to rain again as usual I wish the moon would change if it would have any thing to do with the weather.

Every thing is coming along pretty good but it is going to get late pretty soon and make every thing come all at once.

I have got the Cylindrical oil for the tractor, I have

had it cranked up today
it is working pretty good
there is a man coming next
week to fix it a little but I
will have him go all over
the engine and tighten it.

My dear I am no good
to write a letter I can't
express my thought or say
what I want to say
but I love you and always
will for you are the best
darling in this world to
me. You have always
treated me like a darling
all the time since the

first time that I ever
met you and you always
will I know if I only
do my part that is one
time I will try to do for
WE want a happy home
together.

my darling I wish that
I was with you tonight
but it won't be many
night till we will be
together all the time then
life will be worth living
won't it dearie?

The dining room is 104" 88"
for the large window, and 30 in
for the small window.

I measured the just in the
middle of the of the casing on
the window, if you want
than to come out on the wall
they will need to be six inches
longer.

I wish it would dry up
and stay that way for two
weeks anyway just for a change.

I will try and get up next
Saturday. I will probably
get away but don't know
yet for sure.

From your darling boy one
that always love my dear
sweet many yours C. H. G. ?
