Milwaukee, Wis.

Sept. 29 '81

Was with Ralph and Helen,

Did laundry. Caught up
with all new letters as I have
plenty of time to write as
Jessie does all the work here.
I don't have enough of mind
to do anything, walk across
the room and I am out of breath.
even have a small tank of
oxygen use wheel down. I have
to go for my meals.

Jessie said to thank you
for her nice birthday card from
you. Tell us these Birthdays
are coming to fast.

It seems just a few years
^{IT SEEMS} ago when two were leaving
to move to Colo. from Iowa
and I remember a small
little girl was crying and
screaming. I went to go with

II

"Uncle Sammie." And would not
of course to get her. Ha Ha.
Mama and Margaret have
made quite a trip getting their
quaint children delivered to their
homes. They visited us a
short time twice, wish it
could of been longer. They
are around Redding now.

I was surprised when
they told us Grandpa and
Frank was going to try
and buy John's land's part
of the old farm and more
back there, they want the
old home place and remodel
the the house and I guess
try and farm is one of the
ground, that is going to
take a lot of money. We
hope they can handle it.
I don't see how they can

III

afford that high price paid
just for farm land.

When you come to the Midwest
in October come on a little
further to Colo. and make us
a visit. We would love to have
you. They have a nice guest
room here. Mary and Jesse
were here a few weeks ago
and stayed three nights. They
like it down in W.M.

When they get home Ed
was all packed to leave,
he and another one of his
friends had rented an
apart. to live by themselves.
I think this is his last
year of College.

With my teaching as it
is we haven't been playing
very much cards.

I don't think anyone knows

IV

what a pitch Carder unless
he is an Iowa or Mo. one

John and Rosemarie were
here a short time last Sunday
afternoon. They and R. M. Sister
and husband from Germany,
that is visiting them took a
trip for a week to Seattle
and see the west, left
here around five thirty P.M.
and hoped to be in Omaha
day 6 A.M.

Also we have your little
rocker sitting here and the
more I look at it the better I
like it. It is beautiful.

My eyes are so bad it is
hard for me to see etc.

Love you and see
them of you often.
Jessie & Sam
