28 Oct

Thanks, Alice, for the b-day greeting and your letter with the ARC bulletin enclosed for me.

In 1953 Okinawa, George Elsey accompanied the ranking ARC to this island. Said to us in August - hope you girls have a private room - temp 95 degs with higher humidity - like WDC! I noted he has changed too!

Rushing about as Dad insists on Apacheland. Dr Matteson says, he took his father to N.M. who was as bad off as Stuart. Where there is a will, is a way - so - he will fly out 1 Nov and Belle Cornelison and I to drive the next day - takes about 3 days - 1400 miles.

Arthur Drake says he does not know dates, etc to write the Miller for Redding event - said to give it to Dewey - this I did. I mailed a form to Dewey & Margaret Kruse.

The farmers are busy busy in the fields with big crops and low prices.

Our farm finally finished - cupola and other bldgs repaired & painted - hunk of cement in front of our door - etc -always maintenance! looks better.

Kenneth Quick is busy with the large room on the west of Carls house-to the cave -

Hope all is fine with you.

Best,

Laurie
